

Flooding roadshows

By EFDC

Free advice

Members of Emergency Planning and Land Drainage teams will offer free advice to residents and businesses at our **flooding roadshows** so they can be better prepared should the worst happen.

The team will be visiting areas of the district which are a known flood risk. They will be selling empty sandbags and demonstrating various products and techniques for coping with flood water.

These events are a run up to the national **Get Ready for Winter** week in November.

Flooding roadshows

Visit our display between **10am and 2pm** at the following locations
