a) Information / checking a number of risk areas in the Leisure Centre.

A Health and Safety Manager has carried out an initial survey and the report has been circulated to Cllrs.

Cllr Shorter advised that some issues of concern were raised by the clerk that were beyond her expertise, so in the interests of the safety of the clerk and the public, a surveyor was called in and it was agreed the hall should be closed until further more invasive inspections could be carried out.

Cllr Shorter covered the issues with the hall that have been raised in the survey, namely

- the concrete floor itself slopes quite severely from a position approximately half the width of the hall which would indicate that the structural slab itself has "broken its back"
- there are obvious signs of movement within the structure of the building as well as the surrounding area
- access to and egress from the building via the car park is hazardous due to the amount of slip, trip and fall hazards
- a number of surveys should be undertaken, due to legislation.

It was agreed to ask Sid Clark to quote to produce a formal report, to identify the next steps required by the Council and to quote to manage the whole process. It was stated that the Council should then obtain quotes to undertake the necessary surveys.

It was agreed that the formal report would be available on the website.

Regarding the required remedial work, it was agreed to use SafeSite to hire Heras fencing and Acrow props. Items would need to be secured until installation. Cllr Shorter agreed to oversee installation and a number of Cllrs agreed to assist with the installation.

The cost to buy & plant trees from EFDC, which are suitable for the vicinity are £180 /tree. Total cost £1080. Permission would also need to be obtained from EFDC. It was agreed to request 6 trees for the Pound Close play area.
